DATE: September 30, 2026

RE: Executive Summary: August 2026 Aviation Activity Report

El Paso International Airport (ELP) recorded **314,913** total passengers in August 2026, representing a 1.7% decrease compared with August 2025. Year-to-date passenger activity totaled 2,494,028 passengers, a 0.4% decrease from the same period in 2025. While passenger volumes were slightly below the prior year, the airport continued to maintain a strong level of commercial air service and connectivity.

Passenger Activity

August 2026 enplaned passengers totaled 156,509, down 2.4% from August 2025, while deplaned passengers totaled 158,404, down 1.1%. The year-to-date totals show a relatively stable passenger base, with enplanements down 0.5% and deplanements down 0.2% compared with 2025.

Airline market share in August remained concentrated among the major carriers. Southwest Airlines accounted for 50.86%, followed by American Airlines at 26.04%, United Airlines at 11.58%, Delta Air Lines at 6.08%, Frontier Airlines at 4.20%, and Alaska Airlines at 1.21%.

ELP maintained **52 daily domestic** departures in August, unchanged from August 2025. However, daily available seats increased from 6,664 to 7,123, representing a 6.9% increase. This indicates that although passenger volumes were slightly lower, the airport continued to provide expanded seat capacity for the traveling public.

The airport continued to offer nonstop service to key markets including Atlanta, Chicago, Dallas, Denver, Houston, Las Vegas, Los Angeles, Phoenix, San Antonio,

San Diego, and Seattle, with additional service from ultra-low-cost carrier Frontier to Las Vegas and Denver.

Aircraft Operations

ELP recorded 8,226 aircraft operations in August, an increase of 7.0% compared with August 2025. The increase was driven by significant growth in military and air-taxi activity. Military operations increased 127.4%, while air-taxi operations increased 28.3%. Air-carrier operations also increased 6.1%. General aviation operations, however, declined 72.7% during the month.

Year-to-date operations totaled 62,708, essentially stable compared with the 63,015 operations recorded during the same period in 2025, a decline of only 0.5%.

Air Cargo

Total freight activity in August was 6,989.8 tons, essentially unchanged from August 2025 at 6,985.9 tons. Enplaned freight decreased 10.2%, while deplaned freight increased 7.6%.

Year-to-date freight totaled 53,394.1 tons, down 3.1% from 2025. The decline is primarily attributable to lower enplaned freight, which was down 11.4%, partially offset by a 3.3% increase in deplaned freight.

Fuel Activity

Fuel flow activity remained substantial during 2026. Through August, Atlantic Aviation reported approximately 7.02 million gallons, while Franklin Mountain Aviation reported approximately 1.68 million gallons, for a combined reported volume of approximately 8.70 million gallons.

Summary

August 2026 reflects a generally stable operating environment for El Paso International Airport. Passenger traffic was modestly below 2025 levels, but the airport continued to maintain a broad network of nonstop destinations and increased daily seat capacity by 6.9%. Aircraft operations increased during the month, particularly in military and air-taxi activity, while year-to-date operations remained essentially consistent with 2025.

If you have any questions, don't hesitate to get in touch with Brenda Garcia-Olivas, Real Estate Manager – Airport Terminal Services, 915-820-9806 or garciab@elpasotexas.gov.
