### Independent Accountants' Report on Financial Statements and Supplementary Information

The Honorable Mayor and Members of the City Council El Paso International Airport Fund El Paso, Texas

We have audited the accompanying basic financial statements of the City of El Paso International Airport (Airport), a major enterprise fund of the City of El Paso (City), which are comprised of statements of net assets as of August 31, 2012 and 2011, and statements of revenues, expenses and changes in net assets and statements of cash flows and the related notes to the financial statements for the years ended August 31, 2012 and 2011, as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in *Note 1*, the financial statements of the Airport are intended to present the financial position and the changes in financial position and cash flows of only that portion of the business-type activities of the City that is attributable to the transactions of the Airport. They do not purport to, and do not, present fairly the financial position of the City as of August 31, 2012 and 2011, the changes in its financial position, or, where applicable, its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Airport as of August 31, 2012 and 2011, and the respective changes in financial position and cash flows, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Honorable Mayor and Members of the City Council El Paso International Airport Fund Page 2

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and pension information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The accompanying other supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

## El Paso International Airport Fund Fiscal Year 2012 and 2011 (Unaudited)

### **INTRODUCTION**

The City of El Paso's Department of Aviation is offering readers of the El Paso International Airport Fund's (Airport) financial statements this overview and analysis of the financial activities of the Airport for the fiscal years ended August 31, 2012 and 2011. This document is designed to:

*Provide a concise overview of the Airport's financial activity, comparing fiscal year activity for the past two years and identifying specific economic factors contributing to changes.* 

Help the reader focus on the Airport's financial statements as a whole, describing currently known facts, decisions, or conditions expected to impact the Airport's financial condition and the availability of fund resources for future years.

Management's Discussion and Analysis (MD&A) should be considered in conjunction with the Airport's financial statements. The information contained in the two sections of the Annual Report complement each other.

The Airport provides domestic air service for West Texas, Southern New Mexico, and Northern Mexico, offering approximately 6,381 daily seats for inbound passengers and an equal number for outbound passengers. The Airport also serves as the region's air cargo hub and general aviation center. The Airport is self-supporting, using aircraft landing fees, terminal use fees, concessions, general aviation fees, non-aeronautical revenues and other miscellaneous revenue sources to fund operating expenses. The Airport is not funded through the City of El Paso General Fund. Capital construction projects are funded through revenue bonds, federal grants, Passenger Facility Charges (PFCs) and Airport revenues.

- The Airport's total assets exceeded its liabilities at August 31, 2012 by \$220.8 million.
- The Airport's unrestricted net asset balance was \$26.7 million, or 63.2% of total fiscal year 2012 operating expenses.
- The Airport's restricted net asset balance was \$20.0 million.
- The Airport's total net assets decreased by \$.7 million from that of the prior year.
- The Airport's operating expenses were \$6.2 million more than operating revenues for the 2012 fiscal year.
- The Airport's operating revenues, nonoperating revenues and capital contributions totaled \$39.0 million for the 2012 fiscal year.
- The Airport's operating expenses, nonoperating expenses and transfers out totaled \$45.2 million for the 2012 fiscal year.

### **OVERVIEW OF THE FINANCIAL STATEMENTS**

Our basic financial statements have two components: fund financial statements and notes to the financial statements. This report also contains required supplementary information and other supplementary information presented after the notes to the financial statements.

### **Fund Financial Statements – Overview**

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting is based upon compliance with finance-related legal requirements underlying each fund.

Proprietary funds are generally used to account for services that the City of El Paso (City) charges its customers – either outside customers or internal cost centers of the City. Of the two types of proprietary funds that exist (enterprise and internal service), the Airport is considered to be an enterprise fund. Proprietary fund reporting differs from that of governmental fund reporting, where proprietary reporting has the following attributes:

Scope — Reports the day-to-day operating activities of the Airport for its business-type activities.

Accounting basis — Reports activities using the accrual basis of accounting, meaning that all revenues earned and expenses incurred during the period are reflected regardless of when cash is received or paid.

*Type of asset and liability information* — *Includes all asset and liability items and balances, including both financial and capital, classified as either short or long-term.* 

### **Fund Financial Statements – Components**

The *Statement of Net Assets* is designed to provide asset and liability information, where the difference between the two is presented as Net Assets.

The *Statement of Revenues, Expenses and Changes in Fund Net Assets* is focused on both the gross and net cost of activities that are supported by the Airport's revenues. This is intended to summarize and simplify the user's analysis of the cost of all Airport services.

Our activities reflect private sector type operations where the fee for services typically covers all or most of the cost of operation, including depreciation.

The *Statement of Cash Flows* provides a detail of cash inflows and outflows for the year using the direct method for the operating, noncapital financing, capital and related financing and investing activities of the Airport.

The *Notes to the Financial Statements* provide additional information that is essential to a full understanding of the information provided in the Airport's financial statements. The notes immediately follow the financial statements.

#### **Other Information**

The *Required Supplementary Information* presents information concerning the City's funding of its pension benefits obligation.

*Other* **Supplementary Information** is presented concerning revenues and expenses for intradepartmental units, or cost centers of the Airport.

## FUND FINANCIAL ANALYSIS

### Analysis of the Airport's Net Assets

Net assets may serve over time as a useful indicator of the Airport's financial position. As of August 31, 2012, Airport assets exceeded liabilities by \$220.8 million, a \$.7 million decrease from the previous year. As of August 31, 2011, Airport assets exceeded liabilities by \$221.5 million, a \$.1 million decrease from the previous year.

The following presents comparative financial information for the current and two preceding fiscal years:

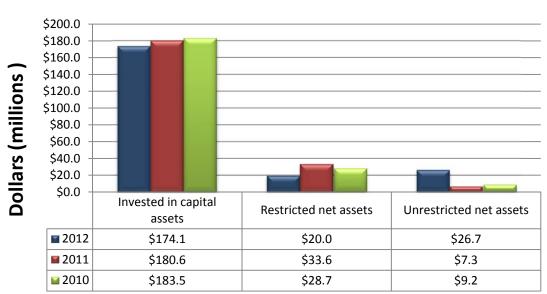

CITY OF EL PASO, TEXAS—EL PASO INTERNATIONAL AIRPORT FUND CONDENSED BALANCE SHEETS AUGUST 31, 2012, 2011 AND 2010										
2012 2011 2010										
Assets										
Current and Other Assets	\$ 70,928,117	\$ 66,867,588	\$ 47,320,534							
Capital Assets	181,161,713	189,419,332	189,982,515							
Total Assets	252,089,830	256,286,920	237,303,049							
Liabilities										
Current Liabilities	4,600,705	6,851,704	4,320,633							
Long-term obligations – due within one year	2,110,501	3,173,539	2,962,410							
Long-term obligations – due in more than one year	24,594,680	24,775,594	8,644,259							
Total Liabilities	31,305,886	34,800,837	15,927,302							
Net Assets										
Invested in capital assets, net of related debt	174,070,654	180,614,584	183,529,366							
Restricted	19,986,644	33,578,850	28,676,014							
Unrestricted	26,726,646	7,292,649	9,170,367							
Total Net Assets	\$ 220,783,944	\$ 221,486,083	\$ 221,375,747							

The largest portion of the Airport's net assets (79%, 82% and 83% in 2012, 2011 and 2010, respectively) reflects its holdings in capital assets such as land, buildings, equipment, improvements and construction in progress, less any debt used to acquire those assets that is still outstanding. The Airport uses these capital assets to provide services and generate revenues; consequently, these assets are not available for future spending. Although the Airport's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from Airport revenues, since the capital assets themselves cannot be used to liquidate these liabilities.

Current and other assets increased \$4.1 million and increased \$19.5 million in 2012 and 2011, respectively. Long-term obligations decreased by \$1.2 million and increased by \$16.3 million in 2012 and 2011, respectively.

Long-term debt obligations, net of unamortized discounts, were \$20,856,643, \$21,858,813 and \$6,453,149 as of August 31, 2012, 2011 and 2010, respectively, resulting in a decrease of \$1,000,799 in 2012 and an increase of \$15,405,664 in 2011.

A portion of the Airport's net assets (9.1% in 2012, 15.2% in 2011 and 13.0% in 2010) represents resources that are subject to external restrictions on how they may be used. These restricted net assets include reserves for debt service and construction and restrictions externally placed by other funding agencies. The \$13.6 million decrease in restricted net assets occurred primarily in the debt service category where \$10 million was released from legal reserves.

## Airport Net Assets at 2012, 2011 and 2010

## **Net Asset Categories**

Unrestricted net assets for the Airport totaled \$26.7 million at August 31, 2012, increasing \$19.4 million, or 265.8% from the previous year. These resources must be used for the direct benefit of the Airport as stipulated under Federal Aviation Administration Grant Assurances and will be used to fund future capital needs of the airport.

### Analysis of the Airport's Changes in Net Assets

The following table provides a comparative summary of the Airport's operations for the years ended August 31, 2012, 2011 and 2010.

#### City of El Paso, Texas El Paso International Airport Fund Schedule of Changes in Net Assets

	2012	2011	2010
Operating Revenues:			
Terminal Building Operations	\$ 13,057,465	\$ 11,702,869	\$ 11,868,699

Net Assets - September 1	221,486,083	221,375,747	222,851,340
Net Assets - August 31	\$ 220,783,944	\$ 221,486,083	\$ 221,375,747

### **Revenue Variance by Cost Center**

Terminal Building Operations increased 11.4% due to an increase in airline terminal space rentals of \$1,206,433 and an increase in airport advertising revenues of \$27,119. There were increases in airport food and beverage of \$95,765, airport gift shop/newsstand of \$4,535. There was a decrease in airport car rentals of \$125,707, while ground rentals increased \$3,758 and other airport revenue increased \$7,716. The terminal renovation project, which began in 2009, added approximately 20,000 square feet in concession space. The addition of new concession areas has contributed to increases in some of the revenue areas mentioned above.

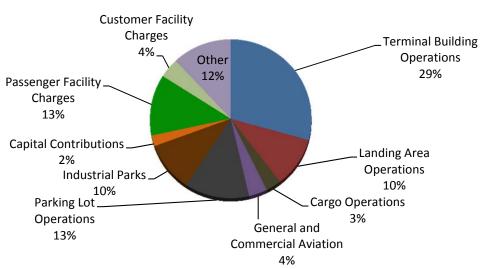

Parking Lot Operations decreased by \$125,548 as a result of lower passenger traffic.

New Cargo Complex Operations revenue increased 11.1% or \$151,388 due to increases in airport building lease revenue of \$145,059, airport equipment parking revenue of \$20,287 and utility cost reimbursements of \$21,540. As a result of the combination of cargo and air freight in fiscal year 2012 there was also a decrease of \$35,498 in aircraft parking fees.

The 12.5% decrease in the Landing Area Operations cost center is primarily attributed to decreases of \$120,353 in airline scheduled landing fees, nonscheduled landing fees of \$44,568, along with decreases in airport gate fees of \$128,895 and fuel flowage fees decreases of \$72,780. Cargo scheduled landing fees decreased \$238,788.

General and Commercial Aviation increased 11.5% due to increases in airport building revenue of \$107,385, aircraft parking fees of \$13,077, airport utility cost reimbursement of \$40,106, ground rentals of \$20,980. Along with these increases, there was a decrease of T-Hangar rentals of \$20,056.

The following graph compares revenue sources:

## **Revenue Sources**

The "Other" in the graph represents revenues from the seven hotels on airport property, two golf courses, the International Trade Processing Center (ITPC) also known as Foreign Trade Zone 68 (FTZ), easement revenue (from the El Paso Water Utilities in consideration for access to airport land where multiple water well sites are located) and interest income.

### **Expense Variance by Cost Center**

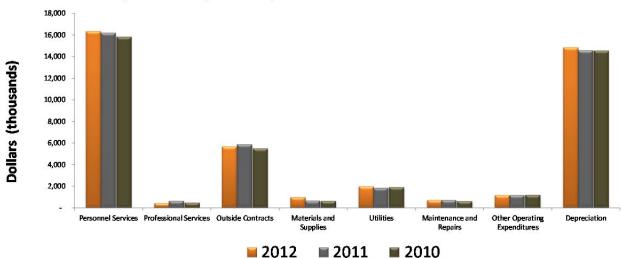

Several cost centers had increases in expenditures for fiscal year 2012. The cost centers that were impacted the most were the General and Administrative, Terminal, Hotels, Foreign Trade and Other. The expenditure increases were \$692,462, \$66,343, \$21,685, \$48,465 and \$103,497, respectively.

New Cargo Complex Operations and Butterfield Trail Industrial Park Operations also experienced increases of \$55,764 and \$111,195.

Parking Lot Operations, Landing Area Operations, Industrial Park Operations, General and Commercial Operations, Air Freight Operations and Global Reach Retail Development Operations decreased \$106,822, \$119,657, \$62,185, \$227,344, 124,423 and \$79,712, respectively.

Expenditures in the Cottonwoods Development cost center decreased by \$139,784.

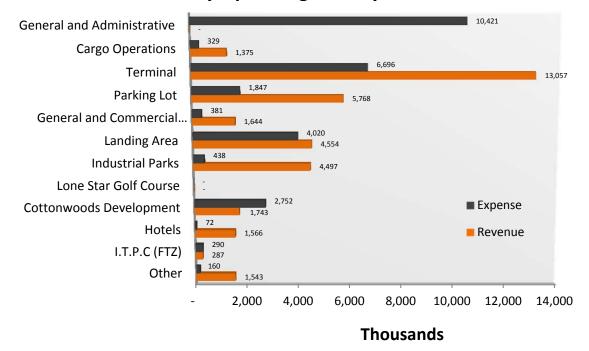

The following chart compares functional expense classifications for 2012, 2011 and 2010.

### **Comparative Expenses by Functional Classification**

The following chart compares revenues to expenses by operating activity (cost center) for 2012.

Revenue and Expense Comparison by Operating Activity FY2012

Operating revenues increased \$1,340,547 in 2012 and decreased \$212,634 in 2011.

Operating loss in fiscal year 2012 that amounted to \$6.2 million can be attributed to increases in personnel service, professional services, outside contracts and increases in maintenance and repairs.

### CAPITAL ASSETS

The Airport's investment in capital assets as of August 31, 2012 and 2011 amounted to \$181.2 and \$189.4 million, respectively, net of accumulated depreciation. This investment in capital assets includes land, buildings and related improvements, equipment and construction in progress. Additional information on the Airport's capital assets can be found in Note 4 of this annual report.

Major capital asset events during fiscal year 2012 include the items noted here. (Federally funded projects were matched with Airport funds where related percentages are noted. All other projects were paid for exclusively with Airport funds.)

#### Runway 8R/26L Extension

This project will extend Runway 8R/26L and relocate the Runway 8R threshold. The extension on the eastern end of the runway will allow for Runway 8R arrival threshold to be relocated by 1,100 feet, alleviating Part 77 surface penetration issues in the area of the terminal ramp and Concourse B gates west of the runway. The design phase of the project began in fiscal year 2010 with project costs totaling \$2.9 million in fiscal year 2012. The project will be funded by both PFC and Airport Improvement Program Funds. The total cost of the project is estimated at \$13.2 million.

#### Terminal Renovation and Expansion

The 20,000 square foot expansion of the terminal involves the renovation and expansion of public areas in Concourse A and B. The expansion added new restrooms, concession space and hold rooms. Project costs in fiscal year 2012 totaled \$494,449. The total actual cost of the project as of August 31, 2012 was \$12.7 million. The project is estimated at \$15.3 million, all of which will be funded by the Airport Enterprise Funds.

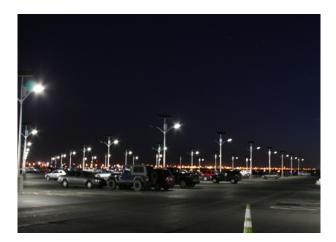

#### Cottonwoods/Global Reach Drive Landscaping Improvements

This project consists of landscape improvements for medians and parkways on Global Reach Street from Montana Avenue to George Perry Boulevard and Cottonwoods from Global Reach to the Butterfield Trail Golf Club parking lot. Capital costs totaled \$1.5 million in fiscal year 2012 which was paid for by Airport Enterprise Funds. Total actual cost of the project as of August 31, 2012 was \$2.6 million.

#### Extension of Long-Term Parking Lot (Solar Lights)

This project involved demolition of two buildings previously occupied by Fixed Based Operators to make way for 2,500 additional long-term parking spaces. The project was substantially completed in fiscal year 2009; however, work continued into fiscal year 2010, specifically the addition of solar lighting to the area. The project cost was estimated to be \$2.3 million, of which \$94,996 was expended in fiscal year 2012. The project was funded entirely from the Airport Enterprise Funds.

## DEBT ADMINISTRATION

At the end of fiscal year 2012, the Airport had total bonded debt of \$21.2 million, net of the unamortized discount, which is secured solely by fees for services rendered. This debt represents the Airport Revenue Bonds, Series 2011 and Refunding Bonds, Series 2003.

On June 1, 2011, the City issued \$16.3 million in Airport Revenue Bonds, Series 2011. Proceeds from the sale of the Bonds will be used to improve, enlarge, extend or repair the Airport, including buildings, landing fields, or other facilities the City considers necessary, desirable or convenient for the efficient operation and maintenance of the Airport.

On September 15, 2003, the City issued \$18 million in Airport Revenue Refunding Bonds, Series 2003. Proceeds from the sale of the Bonds, along with other funds of the Airport, were used to refund the outstanding Airport Revenue Bonds, Series 1996, in order to lower the overall debt service requirements, fund the Debt Service Reserve Fund Requirement with respect to the Bonds and pay the related costs of issuing the Bonds. The City provided \$12.5 million of PFC restricted funds to facilitate the refunding and lower the overall remaining debt service. These funds were not eligible for other uses.

The insured debt is rated A+ by both Fitch and Standard and Poor's and A2 by Moody's Investors Service. Additional information on the Airport's long-term debt can be found in Note 11 of this Annual Report.

### ECONOMIC CONDITIONS AND OUTLOOK

The financial condition of the Airport is dependent upon the number of passengers using the Airport, the amount of cargo moved through the facility, and the relative health of the aviation industry and community as a whole. In addition to aviation related income, the Airport generates revenue through multiple industrial park leases, hotel leases and numerous other non-aeronautical use contracts. These leases provide stable income streams not directly associated with the aviation industry and provide a diverse revenue stream for the Airport.

### Passenger Activity

Passenger levels are dependent upon several factors including the economic conditions of the airline industry, which influence the airlines' willingness and ability to provide service, the local and international economy, which influences the willingness and ability of consumers to purchase air travel, and the cost and associated price elasticity of air travel.

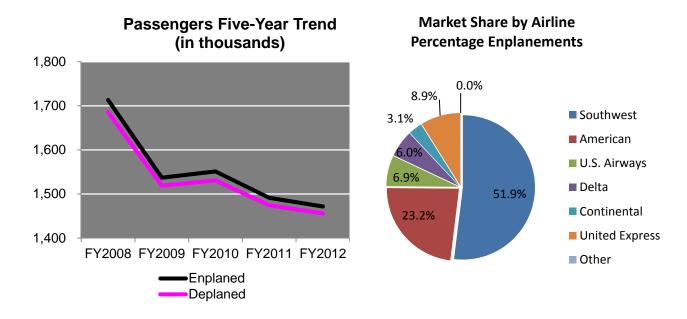

The Airport hosted 2.9 million passengers via six commercial airlines and their subsidiaries during fiscal year 2012. The Airport hosted 2.9 million passengers via six commercial airlines and their subsidiaries through 61 daily domestic departures during fiscal year 2011.

#### **Enplaned and Deplaned Passengers Five-Year Trend**

Fiscal Year	Passengers	% Change Over Prior Year
2012	2,927,772	-1.28%
2011	2,965,855	-3.77%
2010	3,082,170	0.85%
2009	3,056,073	-10.09%
2008	3,398,946	-0.66%

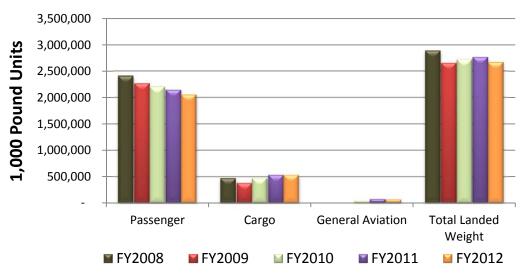

There was a decrease in passenger traffic of -1.28% between fiscal years 2012 and 2011; however, the average annual decline in passenger traffic between fiscal years 2008 and 2012 was -2.99%.

The following charts depict a five-year trend of both enplanements and deplanements and denote the commercial airlines operating at the airport and their respective market share.

### Cargo Activity

In addition to serving the area's passenger needs, the Airport is the air cargo hub for the El Paso/Juarez border plex. Although Juarez has an airport providing passenger service to Mexico's major cities, it lacks air cargo facilities. As such, the air cargo facilities of the El Paso International Airport are used to meet the air transportation needs of the region. The graph below depicts the trend in landed weight for both passenger and air cargo traffic, highlighting a decrease in passenger landed weight but an increase in cargo freight. The landed weight in the General Aviation category is shown below. This represents aircraft exceeding 60,000 lbs. serviced by our Fixed Based Operators.

## Landed Weight Five-Year Trend

### Economic Outlook of the Airline Industry and the Airport Strategy

The national trend of declining airport traffic which began in fiscal year 2008, continued into fiscal year 2012 as a result of the national economy and its impact on consumers' discretionary spending. The airline industry, as a whole, continued to struggle with the impact of high fixed costs and the decrease in demand for travel. Despite the financial pressures faced by the airlines, the Airport attempts to balance its level of exposure to the industry economic shifts by diversifying revenue streams with non-aviation revenue sources.

### Airline Industry

The U.S. Aviation industry continued to be affected in fiscal year 2012 by the slowdown in the economy and the resulting decrease in the demand for travel. Many airlines responded by reducing capacity and increased ticket prices.

#### **Airport Strategy**

The decline in airport revenue is directly attributable to the decline in passenger traffic. Airport staff responded immediately by closely monitoring revenues and expenses to ensure that cash flows were available for operations and for ongoing capital projects. Part of the evaluation included a close look at the timing of capital projects and focus was placed on cost control for both operations and capital project expenses.

#### **Airline Agreement**

The agreement currently in place with the Airlines establishes how the signatory or the participating airlines will be assessed annual rates and charges for their use of Airport facilities. These agreements determine the methodology by which annual rates and charges are calculated for signatory airlines. Landing fees are calculated on a residual basis, which means the airlines are responsible for the net cost of operating the airfield after an application of reductions for certain airfield revenues. The terminal rental rate is calculated on a compensatory basis, representing the airlines' portion of the cost of operating the terminal. Annual rates vary and are based on the City's budget for the subsequent year. Landing fees and terminal rental rates for non-signatory airlines are set by Ordinance and are assessed at 125% of the signatory rates. The current contract expired August 31, 2011. Negotiations began in fiscal year 2011 for a proposed five-year term, which became effective on September 1, 2012.

#### **Revenue Diversification**

In addition to aeronautical revenue derived from the operation of the airlines, the Airport strategically maintains and continues to expand diverse non-aviation revenue streams. The Airport's leasing activity includes both variable and fixed rate contracts. Variable contracts typically include percent of revenue clauses for hotel, car rental and other similar leasing activities. Fixed rate contracts typically include fixed land and improvement rental rates for property owned and leased by the City's Department of Aviation. Such leasing and concessions activity is significant to the overall revenue streams of the Airport, accounting for 43.4% of non-aeronautical revenue and 27.2% of total operating revenue each year.

This type of activity helps to diversify the revenue sources of the Airport so that financial strength can be maintained despite economic fluctuations within the airline industry. The fact that net assets of the Airport have increased a combined 3.1 million over the past six years despite the multiple airline bankruptcies, increases in fuel costs, and the economic slowdown of 2008 - 2010 further sustains this premise and validates the Department of Aviation strategy.

#### **Business Climate**

The outlook for the region and the Airport remains optimistic because of major endeavors in process with the City of El Paso and the surrounding region that could translate into increased passenger activity at the Airport.

The transfer of approximately 21,000 troops and as many as 30,000 family members to Fort Bliss resulting from Base Realignment and Closure (BRAC) Act and other various Army and Department of Defense initiatives will represent a significant gain in area military personnel. The influx of personnel should be complete by 2013.

In 2007, the 80th Texas Legislature passed a bill that provided the startup funds for the full four-year El Paso School of Medicine. The Texas Tech University Paul L. Foster School of Medicine welcomed its first class of four-year medical students in August 2009. A recent Texas Tech study showed the school will have a \$1.5 billion economic impact to the community and will create more than 500 jobs. El Paso's First Children's Hospital opened on February 14, 2012 on the University Medical Center (formerly Thomason General Hospital) location.

In the coming years, Texas Tech University Health Sciences Center at El Paso will be the catalyst for enhancing first-rate medical care in the region, training more physicians and bringing more equity to the health care status of El Pasoans.

## **REQUEST FOR INFORMATION**

The Airport's Annual Report is designed to provide citizens, customers, investors, and creditors with a general overview of the Airport's finances. If you have questions about this report or need any additional information, contact the Airport as follows:

Attn: Director of Aviation 6701 Convair Road El Paso, Texas 79925-1091 (915) 780-4724

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of significant accounting policies of the El Paso International Airport Fund (Airport).

#### A. Reporting Entity

The Airport opened in September 8, 1928 as a Class A municipal airport, for both day and night flying. The Airport is a fund of the City of El Paso, Texas (City), and its activities and functions are controlled by or dependent upon its governing body, the Mayor and City Council of El Paso, Texas (Mayor and Council). The City, as the primary government entity, reports the activities of the Airport as an enterprise fund in its financial statements. The accompanying financial statements do not purport to present the financial position and changes in financial position of the City, taken as a whole in accordance with GAAP.

#### B. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The activities of the Airport, including Airport operations and leasing activities on Airport property, are accounted for as an enterprise fund. Under GASB Statement Number 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments* (Statement Number 34), enterprise funds may be used to account for activities that provide services to the general public for a fee and are required for any activity whose principal revenue sources meet any of the following criteria: (1) any activity that has issued debt backed solely by the fees and charges of the activity; (2) if the cost of providing services for an activity, including capital costs such as depreciation or debt service must legally be recovered through fees and charges or (3) pricing policies establish activity fees or charges to recover the cost of providing services, including capital costs. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The financial statements of the Airport are presented on the flow of economic resources measurement focus and use the accrual basis of accounting. Revenues are recorded when earned. The Airport's operating revenues are derived from charges to users (*i.e.*, airlines, tenants and others) based upon usage of the Airport's facilities in accordance with rates established either by the Airport or under agreements with signatory airlines. Expenses are recognized when a liability is incurred, regardless of the timing of related cash flows.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

# B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Net assets are displayed in three components: (1) invested in capital assets, net of related debt; (2) restricted and (3) unrestricted. Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation reduced by the outstanding balance of any bonds, notes, or other borrowings (excluding unspent proceeds) that are attributable to the acquisition, construction or improvements of capital assets. Restricted net assets are those with constraints placed on their use by either: (1) externally imposed by creditors (through debt covenants), grantors, or law or regulations of other governments or (2) imposed by law through constitutional provisions or enabling legislation. All net assets not classified as invested in capital assets, net of related debt or restricted are reported as unrestricted. Generally, the Airport would first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

GASB Statement Number 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting, requires that governments' proprietary activities apply all applicable GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins. Governments are given the option whether or not to apply to enterprise funds all FASB Statements and Interpretations issued after November 30, 1989, except for those that conflict with or contradict GASB pronouncements. The Airport has chosen not to implement FASB Statements and Interpretations issued after November 30, 1989.

#### C. Cash, Cash Equivalents and Investments

Cash balances of the Airport, except for the portion relating to passenger facility charge revenues, are pooled with other City funds cash balances and invested. Earnings from pooled investments are allocated to funds based upon their share of pooled cash. The Airport's equity in the pooled cash and investments, currency on hand, cash held by trustee, and demand deposits with banks is presented as "Cash and Cash Equivalents" and "Investments."

All investments with an original maturity greater than one year from date of purchase are stated at fair value based upon quoted market prices as of year-end. Investments with an original maturity of less than one year are reported at amortized cost. Premiums and discounts on investments are amortized or accreted using the straight-line method, which approximates the interest method, over the terms of the related securities.

For purposes of the statement of cash flows, the Airport considers all highly liquid investments with an original maturity of approximately 90 days or less to be cash equivalents.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **D.** Inventories and Prepaid Items

Inventories, consisting of materials, supplies, and fuel held for future consumption, are valued at cost, which is determined by application of the first-in, first-out inventory valuation method. The expense for inventory costs is recognized at the time individual inventory items are consumed.

Prepaid items are goods or services that are paid for in advance and are applicable to future accounting periods. Using the consumption method, prepaid items are recorded as expenses as the goods or services are used.

#### E. Capital Assets

Capital assets are defined as assets with an initial, individual cost of more than \$5,000 and an estimated useful life greater than one year. Capital assets are stated at cost or estimated historical cost if purchased or constructed, and at estimated fair value when acquired by donation. Maintenance and repairs are charged to operations as incurred, and improvements that extend the useful lives of fixed assets are capitalized and depreciated over the remaining useful lives of the related capital asset.

Interest costs incurred during the construction of capital assets are capitalized into the cost of the assets being constructed.

Depreciation of capital assets is calculated using the straight-line method over the following estimated useful lives:

Buildings	5 – 50 years
Improvements other than buildings	5-25 years
Vehicular equipment	3-10 years
Furniture and office equipment	3-10 years
Machinery and shop equipment	3-10 years

Improvements other than buildings include runways, roadways and other infrastructure assets. When fixed assets of the Airport are retired from service or otherwise disposed of, a gain or loss on disposal of assets is recorded.

#### F. Compensated Absences

Leave benefits are accrued as a liability as the benefits are earned by employees, but only to the extent that it is probable the Airport will compensate the employees through paid time off or cash payments conditioned on the employees' termination or retirement.

Airport employees earn vacation leave, which may either be taken or accumulated (up to a maximum of 400 hours) until paid upon termination or retirement. In accordance with GASB Statement No. 16, *Accounting for Compensated Absences*, an accrual for unused vacation leave is reflected in the accompanying financial statements as compensated absences.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **G.** Transactions Between Funds

During the course of normal operations, the Airport has transactions with other funds of the City. Transactions between funds that represent exchange-like transactions are accounted for as revenues or expenses of the Airport.

Transactions that constitute reimbursements for expenses initially made from one fund and are properly applicable to another fund are recorded as expenses in the reimbursing fund and as reductions of the expense in the fund receiving reimbursement. All other transactions with other funds of the City are reported as "Transfers In" and "Transfers Out" and are included in the change in net assets.

#### H. Use of Estimates

The preparation of financial statements in conformity with GAAP requires that management make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's estimates.

#### I. Due from Other Government Agencies

The Airport had \$82,852 and \$199,585 due from other government agencies at August 31, 2012 and 2011, respectively. These amounts reflect receivables from the United States Department of Transportation for federally funded security requirements and renovation and improvement projects of Airport facilities and property. The Airport expects to collect the \$82,852 during fiscal year 2013.

#### J. Restricted Net Assets

Restricted net assets were \$19,986,644 and \$33,578,850 at August 31, 2012 and 2011, respectively, and are related to funds restricted by the Federal Aviation Administration for future airport improvement, operations, maintenance and debt service.

Where both restricted and unrestricted assets can be used toward the same expense, the restricted asset will be first applied.

#### K. Bond Discount Amortization

The discount on the Airport Revenue Bonds are deferred and amortized over the term of the bonds using a method that approximates the effective interest method. Unamortized bond discounts are presented as a reduction of the face amount of bonds payable.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### L. Long-term Debt

Interest costs for debt service on general long-term debt are expensed during the reporting period, net of amounts capitalized for construction.

#### M. Adoption of GASB Statements

Effective September 1, 2009, the Airport adopted GASB Statements No. 51, Accounting and Financial Reporting for Intangible Assets, No. 53 Accounting and Financial Reporting for Derivative Instruments and No. 58 Accounting and Financial Reporting for Chapter 9 Bankruptcies. Implementing these pronouncements did not have a material effect on net assets.

#### NOTE 2. DEPOSITS AND INVESTMENTS

The Airport is subject to the same legal and policy restrictions as the City with respect to its cash deposits and investments.

#### A. Pooled Cash and Investments

The City maintains a cash and investment pool (Pool) that is available for use by the Primary Government and Private-Purpose Trusts. Each fund's portion of the Pool is proportionately reported in these statements as "Cash and cash equivalents" and "Investments." Participation in the Pool is restricted and does not include cash on hand (petty cash and change funds) and other funds that are restricted because of statutory or contractual considerations. A fund may overdraw its account in the Pool, with the overdraft reported as a liability (due to other funds) on the balance sheet. Earnings from the Pool are allocated to the funds based upon each fund's daily balance in the Pool in accordance with the City's investment policy.

The Airport held cash and cash equivalents and investments of \$55,026,749 and \$62,794,340 at August 31, 2012 and 2011, respectively. Of these amounts, \$48,254,449 and \$46,407,064 were in City cash pooled accounts and \$17,250,718 and \$16,387,276 were in non-pooled accounts at August 31, 2012 and 2011, respectively.

#### **B.** Deposits

Deposits of the Airport at August 31, 2012 and 2011, consisted of cash held separately with financial institutions of \$2,253,794 and \$71,006, respectively.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 2. DEPOSITS AND INVESTMENTS (Continued)

#### C. Investments

The Airport's investments are included in a pool of investments managed by the City Treasury. As of August 31, 2012 and 2011, investments of the City Treasury are as follows:

#### August 31, 2012

				Maturity	in Y	ears	
Investment Type Fair Value		Less than 1 1-		1-5	<b>Rating/Agency</b>		
Government bonds and agencies Repurchase agreements External investment pools	\$	53,778,279 36,530,216 101,151,512	\$	16,745,160 36,530,216 101,151,512	\$	37,033,119	AA+/S&P AA+/S&P AAm/S&P

#### August 31, 2011

8 /				Maturity	in Y	ears		
Investment Type		Fair Value		Less than 1		1-5	Rating/Agency	
Government bonds and agencies	\$	12,025,480	\$	-	\$	12,025,480	AA+/S&P	
Repurchase agreements		45,886,637		45,886,637		-	AA+/S&P	
External investment pools		176,625,822		176,625,822		-	AAAm/S&P	

The Airport follows GASB Statement Number 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools. This statement requires that governmental entities report investments at fair value and that all investment income, including changes in the fair value of investments, be reported as revenue in the statement of activities. The Airport reports the change in fair value as "Investment Income."

The Airport, through the City, participates in TEXPOOL, LOGIC, Texas Term, TexSTAR and Wells Fargo Government Investment Fund, which are external investment pools. The State Comptroller of Public Accounts maintains oversight responsibility for TEXPOOL. This responsibility includes the ability to influence operations, designation of management and accountability for fiscal matters. LOGIC, Texas Term and TexSTAR are public funds investment pools organized in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code and are privately managed. Although TEXPOOL, LOGIC, Texas Term, TexSTAR and Wells Fargo Government are not registered with the SEC as investment companies, they operate in a manner consistent with the SEC's Rule 2(a) 7 of the Investment Company Act of 1940. GASB Statement 31 allows 2(a) 7-like pools to use amortized cost (which excludes unrealized gains and losses) rather than fair value to report net assets to compute share price. The fair value of the City's position in TEXPOOL, LOGIC, Texas Term, TexSTAR and Wells Fargo Government is the same as the value of TEXPOOL, LOGIC, Texas Term, TexSTAR and Wells Fargo Government shares.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 2. DEPOSITS AND INVESTMENTS (Continued)

#### D. Credit Risk, Concentration of Credit Risk and Interest Rate Risk

The City has adopted an investment policy to minimize the inherent risks associated with deposits and investments. The primary objective of the City's investment policy is to invest funds to provide for the maximum safety of principal. After consideration of the City's safety and liquidity requirements, this policy seeks the highest possible investment return. The Airport adheres to the City's investment policy. The policy defines:

- 1. The requirements for authorized financial institutions, depositories and broker/dealers;
- 2. Investments authorized and prohibited;
- 3. The maximum maturity for any single investment as three years;
- 4. The maximum dollar weighted-average maturity for investment pools as two years.

Custodial Credit Risk (Deposits) – Collateralization is required for deposits in demand deposit accounts, certificates of deposit and repurchase agreements. The collateralization level is 105% of principal and accrued interest. Collateral is held in the City's name by an independent third-party with whom the City has a current custodial agreement and collateral instruments are limited to those instruments authorized by the City's investment policy.

Custodial Credit Risk (Investments) – Securities are held by the City's agent in the City's name.

Credit Risk – The investment policy authorizes the following securities:

- 1. Obligations of the United States or its agencies and instrumentalities;
- 2. Direct obligations of the State of Texas or its agencies and instrumentalities;
- 3. Collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by the agency of instrumentality of the United States;
- 4. Other obligations, the principal of and interest on which are unconditionally guaranteed or insured by the state of Texas or the United States or its agencies and instrumentalities;
- 5. Obligations of states, agencies, counties or cities rated A or better by a national investment rating firm;
- 6. Certificates of deposit and share certificates;
- 7. Repurchase agreements;
- 8. Mutual funds that invest in securities described above;
- 9. Investment pools that invest in securities described above.

Concentration of Credit Risk – While the investment policy does not limit the percentage of authorized investment in the portfolio, investment diversification is required.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 2. DEPOSITS AND INVESTMENTS (Continued)

#### D. Credit Risk, Concentration of Credit Risk and Interest Rate Risk (Continued)

Interest Rate Risk – The City will minimize interest rate risk, which is the risk that the market value of securities will fall due to changes in market interest rates, by structuring the investment portfolio so that securities mature in a manner consistent with projected cash requirements, thereby avoiding the need to sell securities in the open market prior to maturity.

#### NOTE 3. ACCOUNTS RECEIVABLE

Accounts receivable are reported net of an allowance for doubtful accounts. Balances as of August 31 were:

	2012	2011
Unrestricted:		
Trade	\$ 5,256,159	\$ 3,726,800
Interest	113,639	-
Due from other government agencies	82,852	199,585
Allowance for doubtful accounts	 (2,154,850)	 (2,013,433)
	3,297,800	 1,912,952
Restricted:		
Trade	 -	 550,849
Receivables, net of allowances	\$ 3,297,800	\$ 2,463,801

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 4. CAPITAL ASSETS

#### Changes in capital assets were as follows:

	August 31, 2011	Transfers	Increases	Decreases	August 31, 2012
Capital assets not being depreciated:					
Land	\$ 1,382,217	\$ -	\$ -	\$ -	\$ 1,382,217
Art and historical treasures	979,637	-	-	-	979,637

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 4. CAPITAL ASSETS (Continued)

Depreciation expense for the years ended August 31, 2012 and 2011, was \$14,856,438 and \$14,581,757, respectively.

At August 31, 2012 and 2011, respectively, the Airport had \$2,524,604 and \$5,716,933 in funds committed for significant construction contracts in progress.

Construction in progress, financed with FAA grants and/or Airport funds, consists of runway pavement rehabilitation, industrial park development, terminal renovations and other infrastructure projects. Substantial portions of the capital assets owned by the Airport are leased to third parties through operating leases. The majority of these include certified passenger airline leases, commercial and non-commercial aviation ground leases, industrial site lease, auto rental concession leases, and food and beverage concession leases.

Assets leased to third parties as of August 31 were as follows:

	2012		2011
Terminal building and complex operations	\$	61,719,703	\$ 61,708,495
General and commercial aviation operations		13,070,589	13,070,589
Industrial Park operations		1,547,243	1,547,243
Air freight operations		5,117,261	5,117,261
New cargo operations		42,198,732	42,198,732
Parking lot operations		973,062	973,062
Golf course operations		2,859,502	2,859,502
Butterfield Trail Industrial Park operations		6,565,703	6,565,703
Total leased assets		134,051,795	134,040,587
Less accumulated depreciation		(75,956,123)	(70,165,090)
Leased assets, net of accumulated depreciation	\$	58,095,672	\$ 63,875,497

These leases are for varying periods and require the payment of minimum annual rentals. Leases with concessionaires also require payment of percentage rents based on sales in excess of stipulated amounts. Rental income in connection with these operating leases and various other monthly rental agreements for the years ended August 31 was as follows:

	 2012	2011
M inimum rental income Contingency rentals	\$ 16,084,143 2,503,365	\$ 14,936,586 3,200,637
Total rental income	\$ 18,587,508	\$ 18,137,223

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 4. CAPITAL ASSETS (Continued)

The following is a schedule of future minimum rental income to be received on non-cancelable operating leases as of August 31, 2012:

Year Ending	Amount			
2013	\$	10,571,911		
2014		9,331,346		
2015		8,854,334		
2016		8,759,951		
2017		8,397,537		
2018 - 2022		34,868,381		
2023 - 2027		20,915,099		
2028 - 2032		14,029,959		
2033 - 2037		6,756,957		
2038 - 2042		2,674,978		
2043 - 2047		2,048,623		
2048 - 2050		880,614		
	\$	128,089,690		

#### NOTE 5. RESTRICTED NET ASSETS

The Airport has net assets meeting the GASB 34 and 46, *Net Assets Restricted by Enabling Legislation, an amendment of GASB Statement No. 34*, requirement of external restriction, whereby such net assets are presented as restricted. The Airport is subject to three types of external restrictions, as described below:

- 1. The Airport has net assets that are restricted based upon an agreement with the United States Government entered into in 1950, whereby 1,907 acres of land were donated to the Airport. Any revenues derived from the sale, lease, or other use of this land must be utilized for the development, improvement, operation and maintenance of the Airport. Under this agreement, these assets must be utilized for Airport activity subject to FAA approval.
- 2. The Aviation and Safety and Capacity Expansion Act of 1990 (Public Law 101-508, Title II, Subtitle B) authorized the local imposition of PFCs and use of PFC revenue on FAA approved projects. On October 4, 1996, the FAA approved a \$3.00 PFC collection at the Airport, effective January 1, 1997. The Airport submitted an application to FAA requesting that the collection amount increase from \$3.00 to \$4.50. The application was approved May 20, 2010 with an effective date of August 1, 2010. The total approved amount of net PFC revenue plus interest that the Airport is authorized to collect is \$76,826,242 by March 1, 2013.
- 3. The City issued Airport Revenue Bonds, Series 2003 on September 15, 2003. The related Bond Ordinance requires funding of certain debt service and reserve funds limited in use to debt service and other requirements as stipulated within the Ordinance and Official Statement.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 5. RESTRICTED NET ASSETS (Continued)

Changes in restricted net assets for the years ending August 31, 2012 and 2011, are summarized below:

	2012		2011		
Operating Revenues:					
Charges of rentals and fees	\$	485,167	\$	199,322	
Operating Expense:					
Bond services		(400)		-	
Appraisal services		(1,900)		-	
Buidling maintenance repair		(2,330)	-		
External legal counsel		(103,511)		(11,836)	
Nonoperating Revenues:					
Interest revenue		180,972		145,858	
Interest expense		(1,179,561)		(490,076)	
Passenger facility charge		5,535,166		5,846,384	
Customer facility charge		1,765,621		-	
Transfer to/(from) Unrestricted Net Assets:					
Transfer to debt service		362,202		402,724	
Transfer from legal reserves		(9,961,544)		1,281,158	
Transfer to passenger facility charge		5,010,328		-	
Transfer from passenger facility charge	(	10,133,296)		(2,437,291)	
Transfer from customer facility charge		(18,647)		-	
Transfer to unrestricted net assets		(5,530,473)		(33,407)	
Increase in restricted net assets	(	13,592,206)		4,902,836	
Restricted Net Assets, Beginning of Year		33,578,850		28,676,014	
Restricted Net Assets, End of Year	\$	19,986,644	\$	33,578,850	

#### NOTE 6. DUE FROM OTHER FUNDS

There were no interfund receivables or payables as of August 31, 2012 and 2011.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 7. CITY CHARGES AND TRANSFERS

The Airport uses services of other City departments. In some cases, charges for these services are paid by the City and reimbursed by the Airport. In other cases, the payments are made directly by the Airport.

Reimbursements to the City for the years ended August 31, 2012 and 2011, paid as indirect expenses were:

	 2012	2011		
Indirect cost allocation	\$ 1,759,000	\$	1,572,000	
Total indirect charges	\$ 1,759,000	\$	1,572,000	

Reimbursements to the City for services for the years ended August 31 paid as direct expenses were:

	2012		2011	
Police services	\$	2,774,758	\$	2,689,085
Airport rescue and fire fighting expenses		2,498,286		2,616,435
Fire medical services		552,329		530,580
Environmental services		105,183		161,964
El Paso Water Utilities		225,059		692,401
City Manager		83,214		146,173
City Attorney		277,576		273,113
Financial services		58,442		60,375
Engineering services		252,957		247,308
Department of transportation		-		1,481
Economic development		32,968		43,629
Total direct charges	\$	6,860,772	\$	7,462,544

Direct expenses decreased \$601 thousand in fiscal year 2011 from the prior year. The decrease is attributed to the decrease in current year charges for water at the Butterfield Trail Golf Club and Environmental services for Airport projects along with declines in charges for Airport Rescue and Fire Fighting services and Economic Development.

#### NOTE 8. RISK MANAGEMENT

The Airport is exposed to various risks of loss related to torts, theft of property, damage to and destruction of assets, errors and omissions, injuries to employees and natural disasters.

Claim liabilities are estimated considering the effects of inflation, recent claim settlement trends (including frequency and amounts of payouts) and other economic and social factors (including the effects of specific, incremental claim adjustment expense, salvage and subrogation.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 8. RISK MANAGEMENT (Continued)

Provisions for the various types of risks are presented below:

The Airport maintains a \$25,000,000 comprehensive Airport liability insurance policy with a \$100,000 annual deductible. The Airport also has in force an excess aviation liability policy with a limit of \$75,000,000. Additionally, the Airport has liability and indemnity coverage through contractual agreements with various Airport tenants.

Airport employees are covered by a \$2,000,000 liability insurance policy with an aggregate of \$5,000,000 and a \$100,000 deductible per occurrence.

The Airport participates in the self-insurance plans administered by the City (*i.e.*, employees' health coverage, workers' compensation and unemployment benefits).

Employer contributions towards such benefits are recognized as expenses/expenditures in the General Fund of the City and other applicable funds, including the Airport. The City offers life insurance benefits to eligible employees of the City through policies purchased from independent insurance carriers. The Airport also participates in property insurance coverage of the City.

#### NOTE 9. PENSION PLAN

The Airport contributes to the City Employee's Pension Fund (CEPF) and the Firemen and Policemen's Pension Funds (FPPF). The FPPF consists of separate divisions for firemen (FPPF-Firemen Division) and policemen (FPPF-Policemen Division). The following disclosures relate to the City's obligations and relationship with CEPF and FPPF.

The CEPF is a single-employer defined benefit pension plan administered by the Fund's Board of Trustees and was established in accordance with authority granted by Chapter 2.64 of the City Code. The CEPF Board of Trustees is comprised of two citizens designated by the Mayor who are not officers or employees of the City, four elected City employees, a retiree and two City district representatives. The CEPF issues stand-alone financial statements, which may be obtained from the fund's administrative office:

City of El Paso Employee's Pension Fund Two Civic Center Plaza El Paso, TX 79901

The FPPF was established in accordance with authority granted by Article 6243b of *Vernon's Annotated Texas Statutes* and is not considered a component unit of the City. The FPPF issues standalone financial statements, which may be obtained from the fund's administrative office:

El Paso Firemen and Policemen's Pension Fund 8201 Lockheed Drive Suite 229 El Paso, TX 79925

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 9. PENSION PLAN (Continued)

#### A. Membership

Membership (City-wide) of each plan consisted of the following:

	CEPF		FF	FPPF			
			December	r 31, 2011			
	Augus	st 31	Firemen	Policemen			
	2012	2011	Division	Division			
Retirees and beneficiaries receiving benefits Terminated plan members entitled to but	2,407	2,357	659	887			
not yet receiving benefits	81	57	14	11			
Active plan members	4,125	4,113	798	1,040			
Total	6,613	6,527	1,471	1,938			

#### B. City Employees' Pension Fund

#### 1. Plan Description

The CEPF covers substantially all full-time employees of the City, except for uniformed firefighters and police officers who are covered under the FPPF. Non-employer contributions are limited to participating employees of the respective entities.

The designated purpose of the CEPF is to provide retirement, death and disability benefits to participants or their beneficiaries. The CEPF is administered by the CEPF Board, which is comprised of two citizens designated by the Mayor who are not officers or employees of the City, four elected City employees, a retiree and two district representatives. The CEPF Board contracts with an independent pension custodian, investment managers, a pension consultant and an actuary to assist in managing the CEPF.

Through August 31, 2012, the City is the only contributing employer. The CEPF pays direct administrative costs. The City provides indirect administrative support such as office space, utilities and payroll processing at no charge to the CEPF. The CEPF reimburses the City for various direct costs of processing pension checks, such as postage and supplies.

The CEPF is not required to maintain any legally required reserves.

Participation is mandatory for classified employees (except permanent part-time employees). For non-classified employees, participation is mandatory for employees hired after July 1997. Classified employees include all persons who are permanent, full-time employees and are not otherwise excluded from the CEPF. Participants who leave the plan before completion of five years of service receive a refund of their contributions. Participants leaving the plan with more than five years of service may receive a refund of their contributions plus interest at 5.5%, compounded annually.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 9. PENSION PLAN (Continued)

#### **B.** City Employees' Pension Fund (Continued)

#### **1.** Plan Description (Continued)

Participants become vested after reaching 40 years of age and 10 years of service. Normal retirement is the earlier of: (i) 55 years of age with 10 years of service or (ii) 30 years of service, regardless of age. Participants who have both completed 10 years of service and attained age 40 may retire, but defer receiving pension payments until they reach normal retirement age. Alternatively, such vested participants may elect an early retirement, which will provide an actuarially reduced pension benefit payment upon termination. Persons retiring and eligible to receive benefits receive monthly pension payments in the amount of 2.5% of average monthly gross earnings received by the employee during the three years immediately prior to retirement or 2.5% of the average monthly base salary and longevity pay received by the employee during the year immediately prior to retirement, or 2.5% of the monthly base salary and longevity pay for the month immediately prior to retirement, whichever is greater, multiplied by the number of completed years of service, plus .2083 of 1% of such average for each additional completed or fractional part of a month of service. A reduced pension benefit is available to surviving spouses and dependents. The plan includes no automatic increase in retirement benefits; however, the Board at its discretion after consideration of a recent actuarial review of the funding status, may provide ad hoc cost of living or other increases in retirement benefits.

#### 2. Basis of Accounting

The accounting policies of the CEPF have been established to conform to generally accepted accounting principles for state and local governments as promulgated by authoritative pronouncements issued by the Governmental Accounting Standards Board. The CEPF is accounted for on an economic resources measurement focus using the accrual basis of accounting.

The preparation of financial statements in conformity with generally accepted accounting principles requires the CEPF's management to make estimates and assumptions that affect reported amounts of assets and liabilities at the date of the financial statements and the reported changes in net assets during the reporting period. Actual results may differ from those estimates.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 9. PENSION PLAN (Continued)

#### **B.** City Employees' Pension Fund (Continued)

#### 3. Method Used to Value Investments

Investments are stated at fair value in the plan's statements of net assets available for benefits. The fair value of marketable investments, including U.S. government securities and corporate bonds and stocks, is determined by the latest bid price or by the closing exchange price at balance sheet dates (fair value). The fair value of investments in bank collective investment funds is determined by the investment funds based on the market values of the underlying securities in the funds. Bank collective investment funds are governed by Section 9.18 of Regulation 9 issued by the Office of Comptroller of the Currency and by other applicable regulations as defined by the Mellon Bank, N.A. Employee Benefit Collective Investment Fund Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net appreciation in fair value of investments reflected in the accompanying statements of changes in net assets available for benefits represents gains or losses realized during the year plus or minus the change in the net unrealized gains or losses on investments. Net unrealized gains or losses on investments represent the change in the difference between the cost and market value of investments at the beginning versus the end of the year.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 9. PENSION PLAN (Continued)

#### **B.** City Employees' Pension Fund (Continued)

#### 4. Concentration of Investments

The following table presents the fair value of investments that represent 5% or more of the CEPF's net assets available for benefits at August 31, 2012 and 2011. These investments are in bank collective investment funds, which consist of diversified portfolios of investments.

	Shares	Fair Value

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 9. PENSION PLAN (Continued)

#### **B.** City Employees' Pension Fund (Continued)

#### 5. Contributions

Contribution rates for the CEPF are based upon local statutes and are not actuarially determined. However, each time a new actuarial valuation is performed, contribution requirements are compared to the actuarially determined amount necessary to fund service costs and amortize the unfunded actuarial accrued liability (using entry-age-normal cost method) over 40 years. As of the most recent actuarial valuation, the contribution rate was 17% of annual covered payroll.

Contributions (City-wide) were made as follows:

	Year Endeo	lAug	gust 31		Stated % of Covered Payroll	
	 2012		2011	20	012	2011
Employer contributions Employee contributions	\$ 19,181,091 12,607,172	\$	17,948,799 11,938,545		12.25% 8.05%	11.65% 7.75%
Total contributions	\$ 31,788,263	\$	29,887,344		20.30%	19.40%

The Airport's contribution to the City Employees' Pension Fund was \$955,175 and \$905,480 for the years ended August 31, 2012 and 2011, respectively.

#### 6. Securities Lending

The CEPF enters into securities lending transactions with broker/dealers for which fees were paid to the CEPF. The CEPF Board may legally and contractually authorize the use of CEPF's securities for lending transactions. Parameters are set with CEPF's investment guidelines for securities lending transactions. These guidelines require that all securities lending occur with specified broker/dealers and securities be collateralized using U.S. issuer securities at 102% and non-U.S. issuer securities at 105% of the fair value of the securities. U.S. issuer securities used as collateral are marked to market on a daily basis to ensure that the collateralization of the fair value of investments is always maintained. The CEPF may not pledge or sell the collateral securities except on default of the borrower. Because of this, CEPF administration believes there is minimal credit risk associated with securities lending transactions. There is no cost associated with securities lending.

As of August 31, 2012 and 2011, securities loaned to others, at fair value, consisted of \$10,921,566 and \$38,721,884, respectively, in corporate stocks.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 9. PENSION PLAN (Continued)

#### B. City Employees' Pension Fund (Continued)

#### 7. Annual Pension Cost and Net Pension Obligation

The City's annual pension cost and net pension obligation to CEPF for the current year were as follows:

Annual required contribution	\$	19,605,418
Interest on net pension obligation		42,324
Adjustment to annual required contribution		(29,507)
Annual pension cost		19,618,235

Increase in net pension obligation		540,582
Net pension obligation - 8/31/2011		529,052
Net pension obligation - 8/31/2012	\$	1.069.634
not pension congation - 0,01,2012	Ŷ	1,002,021

The City's annual pension cost, the percentage of annual pension cost contributed to the plan, and the net pension obligation for 2012 is as follows:

Fiscal Year Ended		Annual	Percentage of Annual Pension	N	et Pension
August 31					gation (Asset)
2012	\$	19,618,235	97.2%	\$	1,069,634
2011		17,917,056	99.9%		529,052
2010		16,970,907	100.0%		429,175

The Airport's share of the net pension obligation at August 31, 2012 and 2011, was \$73,427 and \$41,847, respectively.

#### 8. Funded Status and Funding Progress

The funded status of the plan as of September 1, 2012, the most recent actuarial valuation date, was as follows:

Actuarial accrued liability (AAL)	\$ 788,204,441
Actuarial value of plan assets	581,725,101
Unfunded AAL	206,479,340
Funded Ratio (actuarial value of plan assets/AAL)	73.8%
Covered payroll (active plan members)	\$ 147,740,362
Unfunded AAL as a percentage of covered payroll	139.8%

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 9. PENSION PLAN (Continued)

#### **B.** City Employees' Pension Fund (Continued)

#### 9. Actuarial Methods and Assumptions

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Actuarially determined amounts are subject to revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, will present multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

For the September 1, 2012 actuarial valuation, the entry-age normal cost method was used. The actuarial value of pension benefit assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The actuarial assumptions included an 8.0% investment rate of return (net of administrative expenses), projected salary increases of 4.5% to 7.75%, which includes an inflation rate of 4.0% and no costs of living increases. The remaining amortization period at September 1, 2012, was 30 years using a level percent, open basis, amortization period. There were no factors that significantly affected the identification of trends such as changes in benefits, actuarial methods or assumptions.

#### C. Firemen and Policemen's Pension Fund

#### 1. Plan Description

The designated purpose of the FPPF is to provide retirement, death and disability benefits to participants or their beneficiaries.

The FPPF is a defined benefit pension plan covering uniformed firefighters and police officers employed by the City of El Paso. Non-employer contributions are limited to participating employees. The City of El Paso is the only participating employer. The City's contributions to the FPPF are limited to 18% of compensation as provided by the City Charter. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of the legal funding limitations.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 9. PENSION PLAN (Continued)

#### C. Firemen and Policemen's Pension Fund (continued)

#### **1.** Plan Description (continued)

The FPPF - Firemen Division is a defined benefit, contributory retirement plan covering uniformed employees of the Fire Department. Participants are required to contribute 15.28% of their compensation to the FPPF.

The FPPF - Policemen Division is a defined benefit, contributory retirement plan covering uniformed employees of the Police Department. Participants are required to contribute 13.89% of their compensation to the FPPF.

Under both divisions, membership is mandatory and effective upon commencement of the probationary period. Participant contributions are not refunded if a participant terminates with less than five years of service and all benefits under the FPPF are terminated. Participant contributions (without interest) are refunded upon request if a participant terminates with five or more years of service but less than 20 years of service. All benefits under the FPPF are terminated if contributions are refunded.

Upon completion of 10 or more years of service, a participant may terminate his service for reasons other than disability or death and receive a pension commencing at age 50 or immediately upon date of termination of service if at least 50 years of age at the time of termination. The pension benefit is equal to 2.75% times final compensation, times the number of years of service, not to exceed 28 years. Normal retirement occurs when employees reach age 45 and have 20 years of service. Retirement benefits are computed based upon 2.75% of the participant's final compensation times the number of years of service and before age 45. The pension benefit is equal to 2.75% times final compensation times the number of 2.75% times final compensation times the number of years of service, not to exceed 28, multiplied by the appropriate actuarial reduction factor.

Final compensation is based upon the participant's highest wages in any calendar month, within the 12 months preceding retirement, excluding overtime pay. Except for disability pensions, a participant's final rank must have been held for at least six months in order to use the monthly pay at the higher rank. A surviving spouse receives 100% of the retiree's pension subject to certain provisions. A participant may receive disability benefits resulting from a total and permanent disability from an injury in the line of duty or any injury not due to the member's own fault. The disability benefit is equal to 2.75% of final compensation times the number of years of service, not to exceed 28 years, with a minimum benefit of 50% of final compensation. Cost of living adjustments are granted to individuals retiring after March 23, 1980, subject to applicable waiting periods, except for deferred retirees. Participants who are 50 years old and have 20.5 years of service may elect the Back Deferred Retirement Option Program (Back DROP). The Back DROP benefit is a lump sum payment and a reduced monthly benefit. The Back DROP period must be at least six months and not more than 36 months.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 9. PENSION PLAN (Continued)

#### C. Firemen and Policemen's Pension Fund (Continued)

#### 2. Basis of Accounting

The FPPF is maintained under the provisions of Article 6243b of Vernon's Annotated Texas Statutes. All current FPPF provisions are set forth in a resolution entitled "El Paso Firemen and Policemen's Pension Fund" effective October 16, 1996 and amended July 17, 2002, as well as state statute. Benefit provisions, contribution obligations, and funding policy of the FPPF are established and amended in accordance with authority granted by Article 6243b of Vernon's Annotated Texas Statutes. The costs of administering the FPPF are paid out of the fund's assets.

The FPPF financial statements are prepared using the accrual basis of accounting. Employer and participant contributions are recognized in the period in which employees provide services to the entity. Benefits and refunds are recognized when paid in accordance with the terms of each plan.

#### **3.** Method Used to Value Investments

Investments are reported at fair value. The fair value of investments is determined by the latest bid price or by the closing exchange price at balance sheet dates (market value). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

#### 4. Contributions Required and Contributions Made

Funding policies provide for periodic employer and participant contributions as established by the City Charter, the Board of Trustees and a vote of active participants in accordance with Article 6243b of *Vernon's Annotated Texas Statutes*. Actuarial valuations are prepared biennially for the FPPF. The FPPF's actuary has indicated that, under the current contribution rate, the FPPF will never accumulate sufficient assets to cover the Unfunded Actuarial Accrued Liability (UAAL). Based upon the results of the actuarial evaluations, if present contribution requirements are insufficient to accumulate sufficient assets to amortize the unfunded actuarial accrued liability, the FPPF's Board of Trustees, after approval by secret ballot of the rank and file policemen or firemen, could increase participant contributions or decrease participant benefits to maintain the actuarial integrity of the system. The City's contribution is determined by a formula set forth in the City Charter.

#### 5. Securities Lending

The FPPF entered into securities lending transactions with its custodian bank, Mellon Bank, N.A. (the Lending Agent), under which FPPF owned investments are loaned to one or more borrowers for a fee. The Lending Agent is responsible for collecting all required collateral in the form of U.S. dollar cash, securities issued or guaranteed by the United States Government or its agencies or instrumentalities, or irrevocable letters of credit issued by banks independent of the borrowers.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 9. PENSION PLAN (Continued)

#### C. Firemen and Policemen's Pension Fund (Continued)

#### 5. Securities Lending (Continued)

Concurrent with the delivery of the FPPF's securities to a borrower, the Lending Agent obtains from the borrower collateral in an amount equal, as of such date, to the required percentage, of the market value of any security loaned, including accrued interest. The required percentage is 102% with respect to U.S. securities and 105% with respect to foreign securities except in the case of loans of foreign securities that are denominated and payable in U.S. dollars, in which event the required percentage is 102%.

At December 31, 2011, \$64,121,701 of FPPF owned investments were loaned to others.

#### 6. Annual Pension Cost and Net Pension Obligation

The City's annual pension cost and net pension assets to FPPF for the current year were as follows:

Firemen Division		
Annual required contribution (ARC)	\$	12,144,598
Interest on net pension obligation		(4,207,171)
Adjustment to ARC (7.75%)		3,170,915
Annual pension cost (APC)		11,108,342
Contributions made		10,156,422
Increase in net pension obligation		951,920
Net pension obligation - August 31, 2011		(54,389,510)
Net pension asset - August 31, 2012	\$	(53,437,590)
Policemen Division		
Annual required contribution	\$	18,222,336
Interest on net pension obligation		(1,228,574)
Adjustment to annual required contribution		925,968
Annual pension cost		17,919,730
Contributions made		13,416,084
Increase in net pension obligation		4,503,646
Net pension obligation - August 31,2011	_	(16,655,575)
Net pension asset - August 31, 2012	\$	(12,151,929)

The Airport's share of the net pension obligation at August 31, 2012 and 2011, was \$1,201,939 and \$1,051,917, respectively.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 9. PENSION PLAN (Continued)

#### C. Firemen and Policemen's Pension Fund (Continued)

#### 6. Annual Pension Cost and Net Pension Obligation (Continued)

The City's annual pension cost, the percentage of annual pension cost contributed to the plan, and the net pension obligation for 2012 is as follows:

Firemen Division							
Percentage ofFiscal Year EndedAnnualAnnual PensionNet PensionAugust 31Pension CostCost ContributedObligation (Asset)							
2012	\$	11,108,342	92.4%	\$	(53,437,590)		
2011		10,691,513	90.1%		(54,389,510)		
2010		15,167,718	511.0%		(55,446,607)		

Policemen Division							
Percentage ofFiscal Year EndedAnnualAnnual PensionNet PensionAugust 31Pension CostCost ContributedObligation (Asset)							
2012	\$	17,919,730	79.3%	\$	(12,151,929)		
2011 2010		17,212,841 18,057,960	75.6% 304.6%		(16,655,575) (20,847,846)		

#### 7. Funded Status and Funding Progress

Firemen Division:

As of January 1, 2012, the most recent actuarial valuation date, the plan was 79.9% funded. The actuarial accrued liability for benefits was \$539,792,447 and the actuarial value of assets was \$431,209,946, resulting in an UAAL of \$108,582,531. The covered payroll (annual payroll of active employees covered by the plan) was \$49,942,127 and the ratio of the UAAL to the covered payroll was 217.4%.

#### Policemen Division:

As of January 1, 2012, the most recent actuarial valuation date, the plan was 78.2% funded. The actuarial accrued liability for benefits was \$800,860,178 and the actuarial value of assets was \$626,346,104, resulting in an UAAL of \$174,514,074. The covered payroll (annual payroll of active employees covered by the plan) was \$66,953,641 and the ratio of the UAAL to the covered payroll was 260.6%.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 9. PENSION PLAN (Continued)

#### C. Firemen and Policemen's Pension Fund (Continued)

#### 7. Funded Status and Funding Progress (Continued)

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Actuarially determined amounts are subject to revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

#### 8. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

For the January 1, 2012 actuarial valuation, the entry-age normal cost method was used. The actuarial value of pension benefit assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The actuarial assumptions included an 8.0% investment rate of return (net of administrative expenses), projected salary increases of 5.5% to 10.5%, which includes an inflation rate of 4.0% and a cost of living adjustment of 3%. The remaining amortization period at January 1, 2012, was 30 years using a level percent, open basis, amortization period. Factors that significantly affected the identification of trends were changes in contribution rates for the Policeman Division employees from 11.89% to 13.89% effective July 1, 2007.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 10. POSTEMPLOYMENT HEALTH CARE BENEFITS

*Plan Description:* The City sponsors and administers an informal single-employer defined benefit health care plan. Texas statute provides that retirees from a municipality with a population of 25,000 or more and that receive retirement benefits from a municipal retirement plan are entitled to purchase continued health benefits coverage for the retiree and the retiree's dependents unless the retiree is eligible for group health benefits coverage through another employer. The state of Texas has the authority to establish and amend the requirements of this statute. The City does not issue stand-alone financial statements of the health care plan but all required information is presented in this footnote.

*Funding Policy:* The contribution requirements of plan members are established by City ordinance and may be amended as needed. Retiree coverage is the same as the coverage provided to active City employees. Retirees pay premiums ranging from \$105.53 to \$1,318.56 per month depending on the coverage elected. The City's adopted budget policy maintains that retirees must pay 45% of the cost of premiums and the City will fund the remaining 55%. Retirees are responsible for the full cost of coverage for their dependents who participate in the plan. Retiree health care benefits are financed on a pay-as-you-go method and are recorded as an expense in the Internal Service Self-Insurance Fund as liabilities are incurred. Of 2,421 retirees eligible, there were 938 retirees covered under this plan at August 31, 2012. Dependent coverage was provided for 346 of the retirees. Total benefits paid by the City for retirees during the fiscal year were \$6,227,298. Retirees contributed \$2,802,284 or 45% of the total current year cost.

Annual OPEB Cost and Net OPEB Obligation: The City's annual other postemployment benefit (OPEB) expense is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years.

The following table shows the components of the City's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the City's net OPEB obligation:

Annual required contribution	\$ 18,613,108
Interest on net OPEB obligation	1,954,931
Adjustment to annual required contribution	 (2,666,845)
Annual OPEB cost	17,901,194
Total annual employer contribution (pay-as-you-go)	 (3,694,951)
Increase in net OPEB obligation	14,206,243
Net OPEB Obligation - September 1, 2011	 43,443,116
Net OPEB Obligation - August 31, 2012	\$ 57,649,359

The Airport's share of the Net OPEB obligation amounted to \$2,936,561 and \$2,210,990 for the years ended August 31, 2012 and 2011, respectively.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 10. POSTEMPLOYMENT HEALTH CARE BENEFITS (Continued)

The components of the ARC calculation reflecting a 30 year amortization period is as follows:

Normal cost	\$ 6,361,363
Interest	286,261
Amortization cost	11,965,484
Annual required contribution (ARC)	\$ 18,613,108

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation as of August 31 is as follows:

An	nual OPEB Cost	Percentage of Annual OPEB Cost Contributed	_	Net OPEB Obligation
\$	17,901,191	23.3%	\$	57,649,359
	14,573,672 14,464,994	22.9% 25.2%		43,443,116 32,206,950
		\$ 17,901,191 14,573,672	Annual OPEB Cost     Annual OPEB Cost Contributed       \$ 17,901,191     23.3%	Annual OPEB         Annual OPEB         Image: Cost Contributed         Image: Cost Contributed

*Funded Status and Funding Progress*: As of September 1, 2011, the most recent actuarial valuation date, the plan was not funded. The actuarial accrued liability for benefits was \$194,917,737, and the actuarial value of assets was \$0, resulting in an UAAL of \$197,917,737. The covered payroll (annual payroll of active employees covered by the plan) was \$264,636,000 and the ratio of the UAAL to the covered payroll was 73.7%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions: Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 10. POSTEMPLOYMENT HEALTH CARE BENEFITS (Continued)

In the September 1, 2011, actuarial valuation, the projected unit credit cost method was used. The actuarial assumptions included a 4.5% investment rate of return based on the City's rate of return on investments for 2007, and an annual health care cost trend rate of 8.5% for 2011 and then reduced by decrements of one-half percent annually to an ultimate rate of 5% after five years. Both rates included a 4.5% inflation assumption. The UAAL is being amortized as a level dollar of projected payroll on an open basis. The remaining amortization period at August 31, 2011, was 30 years.

#### NOTE 11. LONG-TERM OBLIGATIONS

#### A. Airport Revenue Bonds

The Series 2003 revenue bonds are payable solely from the net revenues of the Airport and PFC revenues. However, PFC revenues may only be used for debt service on amounts allocable to projects approved by the FAA.

The interest rates on the bonds range from 3.0% to 4.625%, with final payment due on August 15, 2016. The principal balance at August 31, 2012 and 2011, was \$4,890,000 and \$5,990,000, respectively. The balance of the discount on the bonds at August 31, 2012 and 2011, was \$397,901 and \$497,376, respectively.

Under the provisions of the Airport Revenue Bond Ordinance (Series 2003) adopted September 16, 2003, the City's covenants include but are not limited to: (1) the punctual payment of bond principal and interest; (2) the continued ownership, maintenance, and operation of the Airport; (3) the maintenance of insurance for Airport facilities and activities and (4) the proper and complete keeping of accounting records.

In addition, the City further covenants that it will not acquire any properties that could materially affect its financial operations nor will the City construct, operate, or lease any additional airport or similar facilities that would result in a reduction of minimum required net revenues.

On June 1, 2011, the City issued \$16,330,000 of Airport Revenue Bonds. These bonds were issued at a premium of \$36,463, issuance costs were \$716,909 and interest rates are from 3.25% to 5.25%. The first principal payment is due August 31, 2017 and the last payment is due August 15, 2028. These bonds were issued to improve Airport infrastructure.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 11. LONG-TERM OBLIGATIONS (Continued)

#### **B.** Changes in Long-Term Obligations (Continued)

Changes in long-term obligations were as follows:

	August 31, 2011	Additions	Reductions	August 31, 2012	Due Within One Year
Revenue bonds	\$ 22,320,000	\$-	\$ 1,100,000	\$ 21,220,000	\$ 1,145,000

YEARS ENDED AUGUST 31, 2012 AND 2011

#### NOTE 12. COMMITMENTS AND CONTINGENCIES

#### A. Claims, Litigation and Contingencies

A number of claims against the City are pending with respect to various matters arising in the normal course of the City's operation of the Airport.

Airport management and legal counsel are of the opinion that the settlement of these claims and pending litigation will not have a materially adverse effect on the Airport's financial statements.

#### **B.** Commitments

The Airport has continued to expend funds for capital projects subsequent to year-end. The sources of these funds are previously approved capital projects funded from the operating fund and through Federal aid contributions. Amounts committed were \$401,988 and \$884,214 at August 31, 2012 and 2011, respectively.

#### C. Grants

The Airport has received Federal financial assistance in the form of grants and entitlements that are subject to review and audit by the grantor agencies. Such audits could result in requests for reimbursement by the grantor agency for expenses disallowed under terms and conditions specified in the grant agreements. In the opinion of Airport management, such disallowances, if any, will not be significant.

#### **D.** Current Economic Condition

The current economic environment presents the Airport with unprecedented circumstances and challenges, which in some cases could result in large declines in the fair value of investments and other assets, declines in the volume of business, constraints on the liquidity and difficulty obtaining financing. The financial statements have been prepared using values and information currently available to the Airport.

Current economic conditions could result in a significant decline in airline passenger volume and governmental support. This could have an adverse impact on the Airport's future operating results.

In addition, given the volatility of current economic conditions, the values of assets and liabilities recorded in the financial statements could change in the near term, resulting in material future adjustments in investment values, allowances for accounts, etc., that could negatively impact the Airport's ability to maintain sufficient liquidity.

YEARS ENDED AUGUST 31, 2012 AND 2011

#### **NOTE 13. DEFERRED REVENUE**

#### A. Deferred Revenue

In 2008, the Airport entered into a long-term easement agreement for the placement and operation of a gas pipeline with a 40-year term. The Airport accepted \$1,025,887 as the net present value of the 40-year revenue stream. The total amount was recorded as deferred revenue and is being recognized over the 40 years of the lease in increments that equate to the net present value of the lease payment for each year. In fiscal years 2012 and 2011, \$14,349 and \$11,957, respectively, was recognized as earned. The remaining amount will be recognized according to the following schedule.

Year Ending	A	mount
2013	\$	14,349
2014		14,349
2015		14,349
2016		14,349
2017		17,219
2018 - 2022		89,537
2023 - 2027		107,444
2028 - 2032		128,933
2033 - 2037		154,720
2038 - 2042		185,664
2043 - 2047	_	222,797
	\$	963,710

The Airport also has deferred revenue of \$832,637 that consists of funds received in advance from customers.
